

# I CAN HARDLY WAIT FOR THE DAY

**Am7/G**                    **C**                    **G**                    **Am7/G**                    **C**                    **G**  
I see the sun rise over the horizon; dark night is fading as the sun is rising  
**D**    **Am7**                    **A7sus4**                    **C**  
Into a brand new day that's coming as a new dawn  
**G**    **D**    **Em**                    **C**                    **Asus A7**  
The day begins anew along with the morning.

**Am7/G**                    **C**                    **G**  
I see a storm rise in the distant mountains  
**Am7G**                    **C**                    **G**  
Across the lowlands I feel the tensions mounting  
**D**                    **Am7**                    **A7sus4**                    **C**  
Time now to face the wind and heed the warning thunder  
**G D**                    **Em**                    **C**                    **Asus A7**  
As Children of the Sky we'll meet our timeless wonder.

## Chorus:

**G**    **Bm**    **C**                    **D**    **G**    **Bm**    **C**                    **D**  
I can hardly wait for the day, I know it's not far away,  
**G**    **Bm**    **C**                    **D**    **C**                    **Cmaj7**  
I can hardly wait for the day, to see my Savior in the clouds  
**C**    **A7sus4**    **Am7**    **C**                    **G**  
To take me away from this place

**Am7/G**                    **C**                    **G**                    **Am7/G**                    **C**                    **G**  
In the meantime in great anticipation; Changes are coming in every single nation  
**D**    **Am7**                    **A7sus4**                    **C**  
Hope grows in every heart that sees the changes coming  
**G**    **D**    **Em**                    **C**                    **Asus A7**  
Light grows with the dawn; a day of new beginnings

Repeat Chorus Twice
