Name _____   Date _____

Dreamweaver 8 Project 6 – Short Answer

Instructions: Fill in the best answer.

1.   A(n) _____ is a container that holds content such as images, text,

        form objects, and other layers

2.   The _____ determines a layer's stacking order when more than one

        layer is added to a page.

3.   When a layer remains in a position relative to the top and left margins, regardless

        of how the Web page visitor resizes the browser window, this is called

        _____.

4.   When you insert a layer, a(n) _____ appears in the Document

        Window as a small yellow square.

5.   The _____, which is part of the CSS panel group, is helpful in

        managing the layers in your document.

6.   A(n) _____ indicates that a layer is hidden.

7.   A(n) _____ is an image that has one or more hotspots placed on top

        of it.

8.   Dreamweaver contains three standard events designed expressly for working with

        layers: Set Text of Layer, Show-Hide Layers, and _____.

9.   A(n) _____ is a set of interactive buttons that the Web site visitor

        uses as links to other Web pages, Web sites, or other frames.

10.   The _____ inserts the current date in the format of your preference

        and provides the option of updating the date whenever you save the file.
