Dreamweaver 8 Special Feature – Short Answer

Instructions: Fill in the best answer.

1. To create a photo album requires two elements: First, that _____ be installed on your computer and second, that all of the images for your photo album be stored in a single folder.
2. To start Dreamweaver, point to All Programs on the Start menu, point to Macromedia on the All Programs submenu, and then click _____ on the Macromedia submenu.
3. When creating the album, you can select from _____ thumbnail sizes.
4. When the photo album is created, Fireworks converts to the format which you specify in the _____ dialog box.
5. _____-click the photos folder in the Files panel to display the subfolders and then double-click the images folder to display its contents.
