

# Swarm Lure

Set up a super or small body with foundation.

Entrance is 1.5 to 2 inches square

Smear 1 Tbsp of the lure mixture onto the back of the hive box, or coat a few Q-tips and place in the back of the hive body.

Select a good tree or fly zone. Place the “trap” on top of a fence, shelf or platform about 6 – 15 feet off of the ground.

## Smearable mixture:

¼ cup Olive Oil

2 Tbsp bees wax (1 Inch square)

40 drops Lemongrass Oil (2 ml)

Heat olive oil and wax to make a mixture in a measuring cup sitting in boiling water (double boiler)

When melted and mixed well (5 minutes) add the lemongrass oil.

Pour into a jar with a tight lid.
