

1.  Slyguard 184 encapsulant for half price. Anyone interested in a bulk order?

Anyone interested in buying Dow 6010 encapsulant wholesale at half the price of Slyguard 184?

Dow sells the stuff for \$18 for half a KG. (\$36 for 1KG)

Slyguard 184 sells for over double that, around \$37 for half a KG or \$74/kg.

Dow 6010/6100 was developed a year ago and Dow recommends it over the older Slyguard 184 encapsulant.

I would buy the bulk container from here:

<http://krayden.distone.com/itDetail.asp?it=DC4082127>

Cost per KG would be \$36 + \$4.30 for packaging supplies/shipping= \$40.30

Minimum order would be 2KG (1KG of Adhesive and 1KG of activator)

I would Ship USPS flat rate. \$10.95 Each box will hold from 2KG to 6KG. for the same price.

If you are interested please let me know by emailing me re@rollandelliott.com

I will be purchasing the 6010 which has a 24 hr cure (900 cps viscosity of motor oil).

the viscosity is much less than that of slyguard 3900cps or Karo Syrup equivalent according to

http://www.vp-scientific.com/Viscosity_Tables.htm

This stuff flows so much better than slyguard (LESS AIR BUBBLES!) it should be a lot easier to work with.

Cost table is below:

2KG = \$80.60 +\$10.95 S&H

4KG = \$161.20 +\$10.95 S&H

6KG = \$241.80 +\$10.95 S&H

Payment would be by Paypal or credit card ONLY. Shipping would take 7 to 10 days after payment. If you are in a rush, PLEASE get it from somewhere else. I do not like dealing with impatient people calling me asking me to drive to the post office so they can get it for their rush project for the weekend. I've done a lot of ebay sales and some customers are more headaches than they are worth. Remember I'm doing all the labor free of charge. I don't want headaches from this. Just good Karma 😊

Peace, Rolland
