

I'll Do It Your Way

Capo: 1st Fret

Intro:

D - E - A - D - E

The **A** road You said to take, Lord, seemed too **E** simple,
I tried to prove there was a better **A** way.
Each careful step I took just made me **E** stumble,
And each course I planned just led further a **A** stray. **D - E**

I **A** heard Your loving voice trying to **E** guide me,
But I strove to be the master of my **A** fate.
I built a world of power, fame and **E** fortune,
But the sorrows in my heart grew day by **A** day.

Chorus:

Now I'll do it **D** Your way, **E** for I've tried it **A** my way,
And endlessly **D** wandered down so **E** many lonely **A** highways.
I'll do it **D** Your way, **E** Lord, I'll do it **A** gladly,
Your Love has **D** won my empty **E** broken **A** heart.

I **A** fought in spite of all You did to **E** help me,
I turned my back on You time and a **A** gain.
I ran away in hopes of being **E** something,
And only wound up nothing in the **A** end.

[Repeat chorus]

Chorus:

[I'll do it **D** Your way,] I tried it **E** all alone,
[I've tried it **A** my way,] could not make it on my own!
[And endlessly **D** wandered down so **E** many lonely **A** highways.]
Oh, Lord! [I'll do it **D** Your way,]
Show me **E** what to do, [I'll do it **A** gladly,] and then I will follow You!
[Your Love has **D** won my empty **E** broken **A** heart.]
Your Love has **D** won my empty **E** broken **A** heart.
D - E I'll do it **D** Your **A** way.

D/E
